EZI-CLAD PVC MAINTENANCE FREE CLADDING

WHEN ONLY THE BEST WILL DO

EZI-CLAD Capri uPVC foam cladding works both indoor and outdoor, and is the perfect replacement for traditional materials. The crust foam technology makes it extremely lightweight with a high impact strength surface. When you choose EZI-CLAD uPVC foam cladding, you get the natural beauty of wood combined with durability and zero maintenance of PVC. Makes a **PERFECT replacement for traditional Cedar Wood lining.**

Why Choose EZI-CLAD Premium uPVC Foam Cladding?

- » Works on indoor and outdoor, new-build or renovation projects.
- » Sustainably sourced, from 100% recyclable products.
- » Environmentally friendly uPVC contains no harmful materials is non-toxic and non-caustic.
- » Attractive natural appearance to enhance your property value.
- » No wood filler, not a composite product.
- » Quick and easy installation using standard tools.
- » Comes In long 5900mm lengths which means less joining at ends.
- » Capri has Invisible Tongue and Groove edging which slots neatly together, no joining seams visible.
- » Waterproof, fire retardant and easy to clean.
- » Maintenance free, no oiling or painting saves big \$\$\$\$ over time.
- » UV-resistant and colour stability.
- » Durable easy to install, easy to nail, can be drilled and cut to any shape or bent for arches etc.
- » **Long 25 year factory warranty against cracking, peeling or fading.**
